

Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are now 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in service in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique models of lift trucks, with components covering more than 120,000 particular parts for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your components needs supplied by Clark Totalift.

Clark has a phenomenal Parts Distribution team. The items warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the material handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is now a standard feature on every forklift.

Clark has a continual goal to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental restrictions, thus placing them in a dominant market position.

Clark has preferred the extremely economical and advantageous structure of "Lean Manufacturing" for its assembly facilities and use of resources. This system was developed to acknowledge the most successful method of production facility stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to develop the efficiency and excellence of their merchandise while minimizing costs. The new value engineering program combines innovative product improvement and offers superior consumer support and service within the industry.
