

TCM Forklift Parts

TCM Forklift Parts - In the global trade of material handling, lift trucks play a major role for transporting industrial goods. First innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained recognition following World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machinery spread globally.

Originally established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. prior to becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first forklift. Throughout the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation with the trade. TCM began building lift truck manufacturing sites outside of Japan during the 1980s and is currently engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly manufactures numerous models of industrial lift trucks with more than 50 years of accumulated expertise and technology, making their products recognized and used all around the world. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aspires to become a world-class leading company.
