

Rockwell Part

Rockwell Part - The business of AxleTech International is a big supplier of specialty vehicle drive-train systems and parts along with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to meet and exceed their customers' expectations for quality, service, technology and delivery. They believe in working within an environment that encourages the utmost integrity with empowered collaboration, along with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great importance on being an environmentally conscious company and offering a safe environment for their workers to work in. Also, they have implemented many programs in the corporation to be able to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whatever comments or questions, as they are glad to promote and share this policy with a greater knowledge of their efforts. They are extremely dedicated to improving and preserving the natural world. AxleTech has an EHS program that not only protects the natural environment but which likewise actively protects their neighbors and employees as well.

AxleTech specializes in the manufacture and designing of planetary axles for both commercial and military applications, that could include anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider also. AxleTech particularly designs axles so as to meet specific application demands. They have more than 1000 different axle specs within their existing offering. With over one hundred years of history and skill, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in several commercial and military applications. They offer complete axle assemblies for aftermarket replacement needs, along with servicing axle needs for OE production. Their high mobility ISAS have added details which can be seen in the "ISAS" product selection.
