

JLG Forklift Part

JLG Forklift Parts - In the late 1960's John L. Grove, with his wife Cora set out on a cross country excursion in their RV. Freshly retired, after spending numerous years working with his brother to build their crane business into an market leader, John had no idea that important trip would permit JLG Industries, Inc to emerge. The world leader of mobile aerial work platforms and precision materials handling equipment was the end result of a road expedition.

All through their journey, John reacquainted himself with former business acquaintances along the way. In combination with these conversations and a significant event; two workers were tragically electrocuted on scaffolding when the Groves were passing through the Hoover Dam. John discovered a considerable marketplace for a product that could quickly and safely lift individuals in the air to accomplish maintenance and other building functions.

After their return from vacation, John set up a joint venture with two of his friends and bought a metal fabricating business in McConnellsburg, Pennsylvania. Starting with a small crew of twenty workers, they fashioned and sold their first JLG aerial work platform in 1970. The business incorporates some of the simple design essentials of that original lift into current models.

Since then, JLG Forklifts have come a long way from when Mr. John L. Grove returned from his fatefull cross-country trip and since the first JLG aerial platform entered the marketplace. As of today, the business has expanded itself into quite a few international markets and continues to cultivate contemporary equipment to guarantee that consumers are able to become safer and more well-organized within their workplace.
